Roll-Rite® DC200 Series

Tarpmaster®

Tower & Integrated Housing

Wireless Controls

Pivot Mount

Quality, durable tarp components engineered for tarping detachable container trucks & trailers

DC Series Tarp System Benefits:

- **The Tarpmaster® Electric Gear Motor:**
The Tarpmaster is engineered for high torque tarping. A high-polished chrome-plated casing, designed for virtually corrosion-proof protection, adds a distinct, professional appearance to your truck. The Tarpmaster is warranted for a period of 5-years with the industry's only non-prorated warranty against premature wearout
- **The Tower, Integrated Housing Tarp Spool:** Tower ships pre-assembled with pre-installed, pre-wired and pre-tested Integrated Housing and Tarpmaster Motor. Standard Equipment includes Work Lights and Coil Cord (optional on DC200). Pre-wired fast "install-ready" hookup in under 10 hours. Bolt-on Mountings on Power Pack and Black Box mountings for installs needing more flexibility. Durable black powder-coated finish on tower provides added durability and corrosion resistance. Easiest to Install with 12-inches of clearance behind cab. Tower mounting brackets available in U-Bolt or Side Frame style (see below)
- **Wireless Controls:** Systems with adjustable features come standard with our Black Box™ wireless controls with keyfob remotes. Sealed membrane push button operation. Work light button with remote control access. Meets SAE International Standard for Heavy Duty Vehicle Applications (SAE# J1455). "Install-Ready" pre-wired, improved external connections for fast hookup. Automatic Timed Lockout, No Key lockout needed. Press Ch1 and Ch2 buttons or keyfob to unlock or re-lock. Clearly see what you tarp with 360° walk-around remote operation, preventing load obstruction
- **The Arms:** Roll-Rite® tarp arms consist of a lower pivot arm and upper tarp bow made from a specially treated, high strength extruded aluminum alloy buffed and polished to a mirror-like finish. Arm design delivers the lightest, most durable tarp arm with maximum strength to weight ratio. Telescopic fit for easy installation and widest range of system variations. 45°Pivot Offset option is the strongest offset available. Effectively positions base pivot arm parallel to hoist frame, reducing load interference

Options:

Tower mounting brackets (call for details), Pivot Mount Bracket and 45° Offset Pivot Arm:

- U-Bolt Tower Mounting Brackets

- Side Frame Tower Mounting Brackets

- Angle Iron Mounting Brackets

DC200 Stationary System - Class 3-8

For small trucks with same size containers using up to 24 feet of tarp.
DC200 features:

- TarpMaster® 98" Tarp Spool w/ Integrated Housing
- Powder Coated Stationary Tower
- External Pivot Mount Set
- Single Function RF Controller w/ 1 Keyfob
- Wide Tarp Bow Set
- Optional: Worklights (standard on DC203/DC204)

Estimated System Weight: Under 500lbs

- (shown) DC200 w/ Optional Worklights

DC203 Adjustable System - Class 3-8

For single axle trucks with similar size containers using up to 24 feet of tarp. DC203 features:

- TarpMaster® 98" Tarp Spool w/ Integrated Housing
- Worklights
- Powder Coated Adjustable Tower
- External Pivot Mount Set
- Single Valve Hydraulic Pump w/ Black Box™ Remote w/ 2 Keyfobs
- Wide Tarp Bow Set

Estimated System Weight: Under 550lbs

- (shown) DC203 w/ Optional 45° Offset Pivot Arms

DC204 Pickup Chassis System - Class 3-5

For Pickup Chassis Using up to 24 feet of Tarp. DC204 features:

- TarpMaster® 98" Tarp Spool w/ Integrated Housing
- Worklights
- Powder Coated Adjustable "LOW" Tower - Low Tower uses Side Frame Tower Mount Brackets designed specifically for Class 3-5 trucks for shorter tower starting height to cover smaller containers
- External Pivot Mount Set
- Single Function RF Controller w/ 1 Keyfob
- Wide Tarp Bow Set

Estimated System Weight: Under 550lbs

- (shown) DC204 w/ Optional 45° Offset Pivot Arms

- External Pivot Mount Bracket (PN 45170)

- 45° Offset Pivot Arm Ideal for Load Clearance

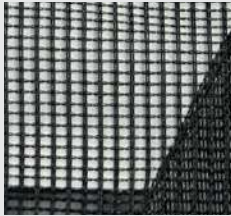

- Worklight Option for DC200 Stationary System

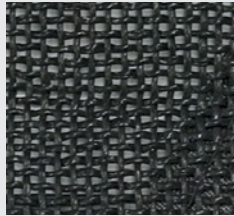

Tarps By Roll-Rite®

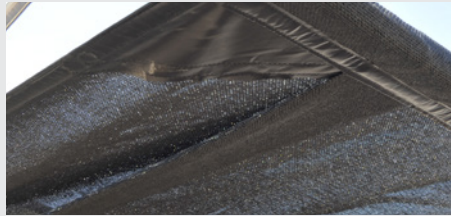

Premium Mesh

- Load Type: Refuse, General
- Fabric: 7.7 oz premium 7.5x5 weave with two 1000 denier polyester UV coated twisted strands (1500Dx1000D)
- Key Benefit: Premium strength, longer life cycle than industry standard mesh

Super Tough Mesh

- Load Type: Challenging Scrap, Construction & Demolition
- Fabric: Premium 16 oz heavy, 7x7 weave with 7,500 denier UV protected strands of polypropylene breathes enough to minimize flapping
- Key Benefit: Longer life, up to 3x-5x wear life over other scrap tarps

The Pleated Tarp Design:

You can have the benefits of both a straight tarp and a flapped tarp with none of the hassles. Fabricated with two pleated folds along the length, the tarp can expand up to 10' wide to function like flaps. Pleated Tarps are a custom order. The Pleated Tarp lets you...

- Eliminate shock cords
- Forget the seams
- Stop straining to reach the center of a flapped tarp
