MOVE YOUR DRUMS THE SMART WAY

“With Drumclip, your drums are secured throughout the distribution chain to prevent damage and loss. **In a certified way.**”

**DRUM
CLIP**

WITH DRUMCLIP

WITHOUT DRUMCLIP

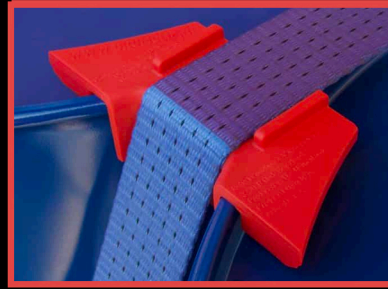

Drumclip is a certified, simple and lightweight solution for securing drums to a pallet. This ensures **pallet stability and safety** when transporting drums. Including a much smaller chance of accidents, loss and damage. Use of the Drumclip for the transport of drums overland has been tested and certified for, among others, curtain side trailers.

2 TYPES OF DRUMCLIP

GREEN

For open-head drums of 200 liters, recognizable by an open top.

RED

For tight-head drums, recognizable by a closed top.

3-STEP INSTALLATION

1

Place 4 drums on a wooden pallet

2

Place 2 Drumclips on the outside of the drums

3

Fasten strap in the middle and under the pallet

4

Place the strapped drums on the trailer

5

Secure the pallet to the trailer using tension strap

6

Consult manual to see correct strap combinations
