

# GREEN AND RED DRUMCLIPS

## INNOVATIVE DRUM TRANSPORTATION TOOLS

Both the **Green and Red DRUMCLIPS** stand as lightweight, DIN and ISTA-3 E certified plastic tools, dedicated to making the transportation of various drum types both safe and uncomplicated.

Understanding the criticality of robust cargo securement, particularly when dealing with open head or plastic drums, is vital. **This is where Drumclips come into play, offering the perfect solution!**

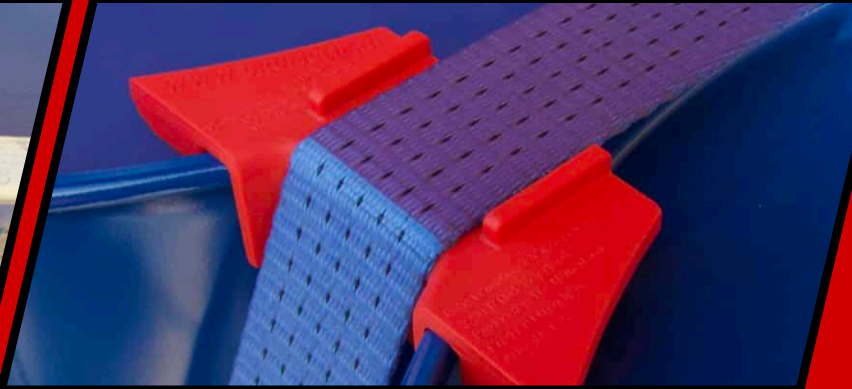

Originating as a brilliant, patented innovation from the Netherlands, Drumclips have quickly established themselves as the first choice for drum securement. Their ingenious design amplifies both safety and efficiency in drum tie-down.

### Available Drumclip Varieties:

#### DC19B GREEN DRUMCLIP

#### DC18A RED DRUMCLIP

### Key Benefits of the Drumclip:

- 1. Efficient Operations:** Accelerate your loading and unloading phases. Simply align two Drumclips over the edges of two drums, thread a ratchet strap through the specially designed guides on the Drumclips, fasten, and you're all set!
- 2. Featherweight Construction:** Each Drumclip weighs only 0.22lbs.
- 3. Built for Durability:** Thanks to its strong and smart design, the Drumclip promises lasting utility.
- 4. Compact and Efficient:** With just a pair of Drumclips, you can secure anywhere from four to eight drums on a trailer.

**ELEVATE YOUR DRUM TRANSPORTATION  
EXPERIENCE WITH DRUMCLIPS!**
